"Start With The Customer And Work Backwards"
Fred Thompson, Founder

Independence At Home

The autonomE integrates environmental control, communication and computing in one streamlined package. Our technicians install and customize your autonomE system and integrate equipment such as automatic door openers, smart devices, etc. to fit your needs.

Accessibility Services, Inc. (ASI) helps you achieve maximum independence where it matters most. The autonomE Residential package allows you to control various aspects of your home including your television, telephone, lights, bed and more. And, its advanced AAC features include options such as voice banking, which allows you to preserve your own voice and unique expressions.
